PROJECTS

- E-Commerce Shopping Website**

Sept 2024 - Nov 2024

 - Developed a fully functional e-commerce platform using **React.js** to deliver a seamless and engaging user experience.
 - Implemented core features to enhance shopping efficiency:
 - Product catalog for easy browsing and selection of items.
 - Add to cart functionality for effortless shopping and order management.
 - Secure checkout process ensuring smooth and reliable transactions.
 - Utilized React hooks and Context API** for efficient state management and data handling across the application.
 - Designed responsive layouts using **CSS** and **Bootstrap**, optimizing usability for both mobile and desktop users.
 - Integrated authentication and a secure payment gateway to enhance user security and ensure safe transactions.
 - Used MySQL** for structured data storage and efficient database management.
 - Leveraged JavaScript, HTML, and CSS** for interactive and visually appealing user interfaces.
- Travel Website**

Feb 2024 - May 2024

 - The Travel Explorer Website is a dynamic and interactive platform designed to inspire and assist users in planning their ideal travel experiences.
 - Serves as a one-stop solution for travelers to:
 - Discover destinations with detailed insights.
 - Compare travel options to make informed decisions.
 - Book trips seamlessly through an integrated booking system.
 - Share their adventures with the community.
 - Built using **Angular** for a responsive and engaging user interface.
 - Utilized **Bootstrap** for a sleek and mobile-friendly design.
 - Developed with **JavaScript** to enable interactive features.
 - Backend powered by **Node.js** and **Express.js** for efficient server-side processing and API management.
